

Downloaded file "was blocked because this type of file can harm your device" - Microsoft Edge

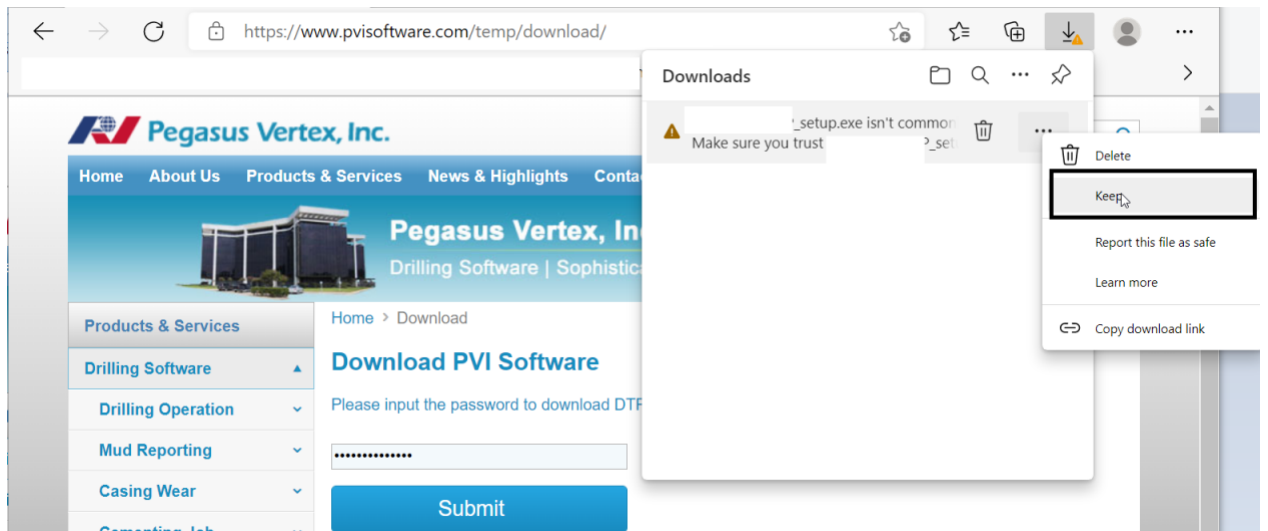

When downloading setup files using the Microsoft Edge browser, you may receive a message stating that the file "was blocked because this type of file can harm your device". All setup files hosted by [pvisoftware.com](https://www.pvisoftware.com) are safe to download and install to your computer.

To complete your download using Microsoft Edge, do the following:

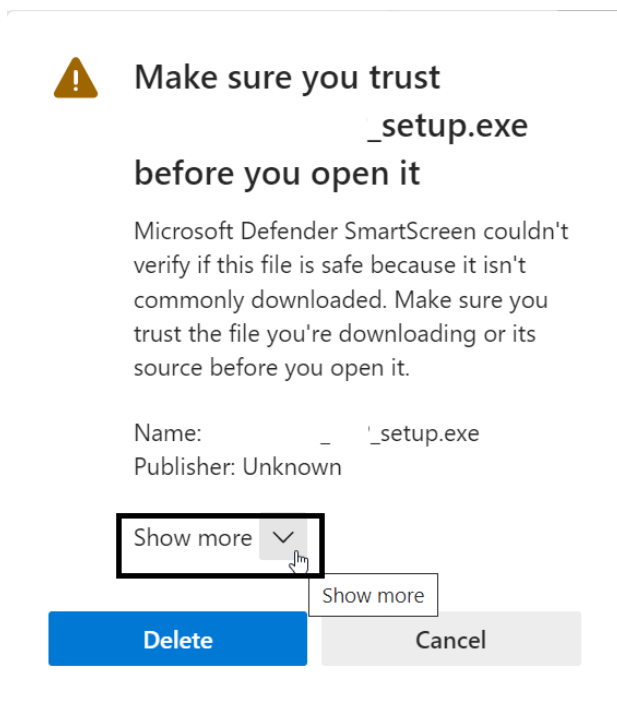

1. In the top right corner of the browser left-click the yellow triangle warning on the download icon. A list of recent downloads will appear.

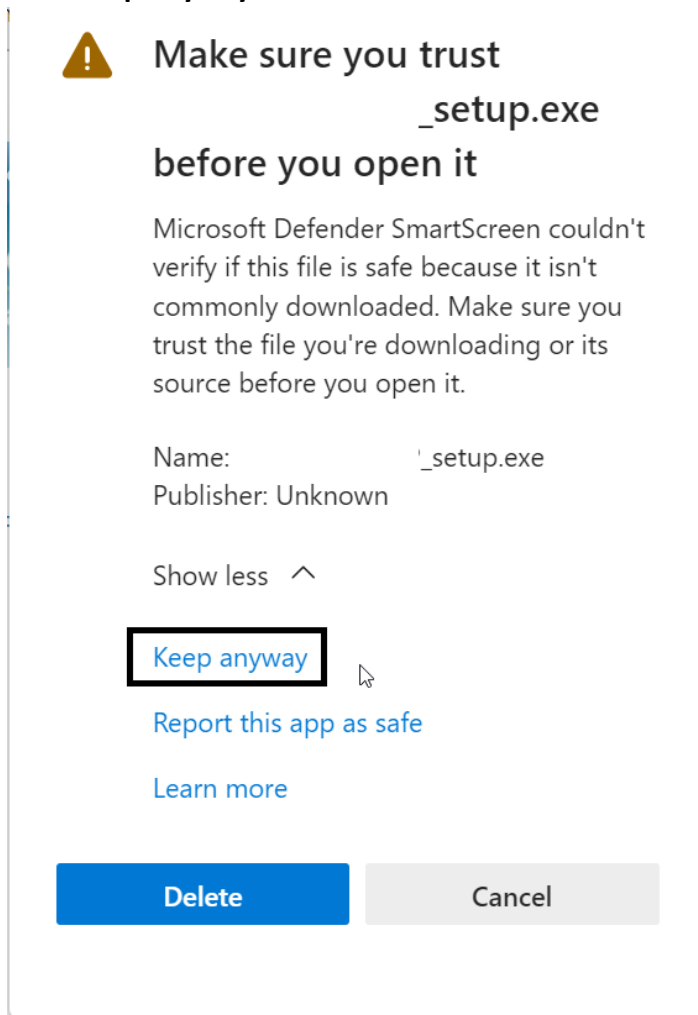

2. Right-click the downloaded file and left-click **Keep**.

3. Click **Show More**

4. Click **Keep anyway**

5. You may now right-click the file and choose either **Open file** or **Show in folder**.
